Abhishek Tanwar

Telco AI Evangelist | Partner | Enterprise Architect @ Wipro
New Delhi, Delhi, India

Summary

With over 20+ years of experience, as an Enterprise Architect
specializing in B/OSS and an AI Evangelist, my goal is to drive the
strategic vision and execution of comprehensive BSS transformation
initiatives. By leveraging my expertise, I aim to design and implement
scalable, efficient, and innovative solutions that align with the
organization's business objectives through the integration of cutting-
edge technologies and best practices and mixing AI/Agentic AI/ML
when needed.

Industries:
1. Communications
2. B2B
3. B2C

Languages
1. Hindi (Native)
2. English (Proficient)
3. German B1 (Intermediate)

Finally, I consider myself as a hands-on architect who loves to play
with latest technologies, tools kits and programming languages and
AI.

———

Experience

Wipro
20 years 4 months

Partner
October 2025 - Present (4 months)
New Delhi, Delhi, India

As partner and an enterprise architect, I bring together my profound technical
acumen with a strategic outlook. My expertise spans various technologies,
architectures, and systems, empowering me to craft and deploy intricate

solutions that harmonize with the overarching objectives. I excel at translating business needs into precise technical specifications, ensuring that the technology landscape propels the company towards sustained growth and innovation. Acting as a liaison between IT and business stakeholders, I steer the organization towards efficient, scalable, and secure BSS solutions.

Enterprise Architect
August 2019 - September 2025 (6 years 2 months)
Munich, Bavaria, Germany

As an enterprise architect, I bring together my profound technical acumen with a strategic outlook. My expertise spans various technologies, architectures, and systems, empowering me to craft and deploy intricate solutions that harmonize with the overarching objectives. I excel at translating business needs into precise technical specifications, ensuring that the technology landscape propels the company towards sustained growth and innovation. Acting as a liaison between IT and business stakeholders, I steer the organization towards efficient, scalable, and secure BSS solutions.

Key engagements includes:

Telefonica, involving B2B with salesforce, MM with Hansen and lot of shared domains with COTS and bespoke applications. Goal is to transform into GCP and AWS and enable standard processes using TMF standards.

T-Mobile, involving cloud migration with all security controls to AWS cloud.
